Model::AbsTransform

- _m_empty_transforms: TransformContainer_

```
+   AbsTransform()
+   ~AbsTransform()
+   addChild(AbsTransform&): void
+   begin(): TransformIterator_const {query}
+   begin(): TransformIterator
+   clone(): AbsTransform* {query}
+   end(): TransformIterator_const {query}
+   end(): TransformIterator
+   removeChild(TransformIterator_const): void
+   transform(class Chunk_iterator&, class AbsAudioFile&): void {query}
```

Model::InvertTransform

```
+   clone(): InvertTransform* {query}
+   InvertTransform()
+   transform(Chunk_iterator&, AbsAudioFile&): void {query}
```

Model::CompositeTransform

- m_transforms: TransformContainer

```
+   addChild(AbsTransform&): void
+   begin(): TransformIterator_const {query}
+   begin(): TransformIterator
+   clone(): CompositeTransform* {query}
+   CompositeTransform()
+   CompositeTransform(CompositeTransform&)
+   ~CompositeTransform()
+   end(): TransformIterator_const {query}
+   end(): TransformIterator
+   removeChild(TransformIterator_const): void
+   transform(class Chunk_iterator&, class AbsAudioFile&): void {query}
```

1..*

Model::RepeatTransform

- m_nRepetitions: size_t

```
+   clone(): RepeatTransform* {query}
+   getNRepetitions(): size_t
+   RepeatTransform(size_t)
+   transform(class Chunk_iterator&, class AbsAudioFile&): void {query}
```
